INJURED MAN DIES AT N. B. HOSPITAL

Rocco Masserino Had Both Legs Cut Off by Middletown Train

HOWALTER'S BULLETIN

First Selectman Looks Over East Berlin Roads—School Children Go On Trip to New York—Mrs. Moore In Serious Condition—Items.

Rocco Masserino of Kensington, who was struck by the Middletown branch electric train last night shortly after 8 o'clock, died at 2:45 o'clock this morning at the New Britain general hospital. Funeral arrangements are incomplete. According to Engineer Cook, the man was lying face down across the track just as the train rounded a sharp curve some distance from the Berlin station. The brakes were applied, but too late to keep the train from running over the man and striking off both legs below the knees. The injured man was picked up by a train crew and rushed to the New Britain general hospital in the police ambulance. It has not been determined how he came to be lying on the track, although it is thought that in talking up the track to the Murray rick yard where he was employed, he stumbled and fell, striking his head and becoming unconscious. He is survived by his wife, who lives in Italy.

CLEAN KIDNEYS BY DRINKING LOTS OF WATER

Take Salts to Flush Kidneys If Bladder Bothers or Back Hurts.

Eating too much rich food may clog kidney trouble in some form, as a well-known authority, because acids created excite the kidneys, when they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and a heavy in the kidney region, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation. The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, begin drinking lots of good water and also get about one ounce of Jad Salts from any drug pharmacy; take a tablespoonful of a glass of water before breakfast a few days and your kidneys may be set fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia. It has been used for years to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in the system so that they no longer irritate, thus often relieving sudden disorders. Jad Salts cannot injure anyone; it is a delightful effervescent alkali-water drink which millions of men and women take now and then to help clean the kidneys and urinary organs clean, thus often avoiding serious kidney disorders. By all means have your physician examine your kidneys at least twice a year.

Mrs. Moore Seriously Ill

Mrs. Bernard P. Moore of Kensington was taken to the Hartford hospital yesterday, reports being that she is seriously ill. She is being attended by Dr. Kingsbury of Hartford.

The condition of James Kerrigan of Kensington remains about the same. It was stated this morning by relatives.

Mrs. Walter Atwater of Berlin was operated upon at the Hartford hospital yesterday. It was reported that she was resting comfortably today.

School Head Issues Bulletin Superintendent of Schools B. R. Showalter has issued a pamphlet, which he has sent to all the voters in the town. This pamphlet takes up the growth in registration in the schools as compared with the growth in the town's population, housing expansion since 1918, educational policies in Berlin, housing problems for next year and the building needs for September, 1923.

Regarding housing expansion the bulletin states that since 1918 one room has been added at the Hubbard school, one room at the Worthington school and one room at the Percival school. Regarding temporary expansion two basement rooms have been put into use at the Kensington school and two portable rooms have also been used at that school. Besides this expansion an office has been converted for class use and a two-room district school, abandoned in 1916, has been reopened.

The policies for education in Berlin are also described in the pamphlet. These are the consolidation of the schools, meaning the elimination of district schools where the population justifies; a full time school day for each child; the elimination of overcrowding and unsatisfactory crowding, and having the children attend the elementary schools nearest their homes. The bulletin goes on to state that present conditions compel the improvement of these policies. The district school has been reopened at the Lodge, which is five minutes from the Kensington school. The Junior High school was on part time until April 3. Fifty per cent of the children are overcrowded. They have to be put in basement or portable rooms. Seventy Kensington children are attending the Selden and Worthington schools, causing overcrowding there. Regarding the housing problem for next year, taken from estimates based upon February reports and the 1922 enumeration the Selden school will need room for 90 pupils, its present capacity being 70; the Worthington school will have to take care of 17 over its capacity, the Kensington school 62 more than it has room for and the Junior High school 51 over capacity.

The capacity figures were based on floor space or a maximum of 35 pupils per room. The bulletin states that Berlin has no schools in which it can afford, educationally, to place more than this maximum. There are two building needs for September, 1923. They are added facilities in Blue Hill and more room in Kensington to eliminate unsatisfactory housing and to care for the increase.

The solution of these problems, according to the bulletin, first in Blue Hill is to acquire more land and add to the present timeworn building, to erect a new building, or to convert the portable building in Kensington into a permanent building. In Kensington it is recommended that a new building be erected, either on the play ground or on a new site, making possible the Rochester, or one story type of building, at a much lower cost than a two story structure, with possibilities of expansion at a low cost, as needed.

The bulletin concludes with a statement to parents and voters. It says: "What are you going to do for your children? Action can be delayed no longer without handicapping them. Further postponement will be costly financially and in terms of child welfare."

The present housing conditions are shown in a diagram made by Mr. Showalter. From it is learned that 41 per cent of the children are properly housed. Eight per cent are in portable rooms. Five per cent study in basement rooms. Seven per cent are in district schools and 37 per cent are in overcrowded rooms.

Roads Are Inspected. First Selectman George B. Carter yesterday inspected the roads in the East Berlin section of the town. While he found them fairly good, he announced this morning that several improvements and changes will be made before the summer traffic becomes heavy. Mr. Carter also inspected the bridges and safety fences in East Berlin.

Take Trip to New York Eighteen children of the eighth grade geography class at the Junior High school left this morning for a day's excursion to New York city under the direction of Miss Olive Lawrence, assisted by Professor A. H. Martin.

It is planned to visit all the points of interest, Grant's Tomb, the Statue of Liberty, Metropolitan Museum of Art, Wall street, the Woolworth Building and the Aquarium, being some of the interesting places included in the trip. Before leaving for Berlin at 8 o'clock the children will get a glimpse of "The Great White Way."

The trip is in connection with the study of geography in the school. **Farmers' Club Meeting.** The Berlin Farmers' club will meet this evening at the home of Willis I. Savage. The speaker of the evening will be Mr. Southwick, agent of the Hartford County farm bureau. All members are urged to be present at the meeting, the first in many months.

EXPECT GOVERNOR TO ATTEND BANQUET

Templeton, Through Sen. Trumbull's Efforts, to Be C. of C. Guest

\$175 DONATED FOR AUTO

Church Street Barn Destroyed by Fire — R. M. Hall Gets Into Business — Drive Meeting Success—Church Notices—Plainville Briefs.

Governor Charles A. Templeton will attend the banquet of the Plainville Chamber of Commerce on May 9 in the banquet chamber of the Masonic Temple, according to an announcement by Ralph Seymour, president of the Chamber of Commerce today. It is mainly through the efforts of Senator John H. Trumbull, president pro tempore of the senate, who is a personal friend of the governor, that the chief executive of the state has consented to be present because the gov-

ernor is much sought after by many organizations and societies. Governor Templeton will enjoy his visit here because about 35 years ago he was a resident of Plainville. He made his home on Broad street with Rev. W. Everett Johnson, an Episcopal minister. Many of the older residents in Plainville can recall "Charley" Templeton, as they termed him, who lived here, and the Chamber of Commerce banquet hall will not be able to house all those who will try to hear and see the first man of Connecticut.

Besides the governor, the chief speaker of the evening will be Rev. Rockwell Harmon Potter of the First Church of Christ of Hartford. Dr. Potter is president of the Connecticut Federation of Churches and is one of the ablest speakers in the state. Another speaker to be selected in the near future will be the Rev. Danil M. Collins who will enter and the entire membership of the Plainville Chamber of Commerce will be present.

\$175 Donated to Fund Mrs. Edwin Hill announced this morning that the surplus left in the treasury of the Surgical Dressing society which was active during the world war, would be donated into the fund being raised to purchase an automobile for the use of the visiting nurses in their work in Plainville. The Surgical Dressing society was, as many remember, one of the most active organizations during the late conflict, and a good sum of money was raised with which the work was carried on. The signing of the armistice, however, came before all the funds were spent and the money has been held in the treasury of the society, although the society itself has been inactive. The amount totals about \$175 and will be a great help in completing this fund which is considered one of the most worthy in Plainville. It is expected that the fund, with this donation, will easily be completed within the next week when the We-Uns club will conduct a drive to enable the nurses to make their calls with the aid of a car.

Barn Destroyed A serious conflagration was narrowly averted by the hard work of the firemen yesterday afternoon, when a barn on Church street, owned by Mrs. Mary Stevenson, on the premises occupied by Station Agent William Foran was destroyed by flames. During the course of the blaze, sparks flew onto the roof of Daniel Collins' home and set fire to the shingles there. The firemen who had answered to an alarm for the fire in the barn quickly mounted a ladder and tore off the blazing shingles and prevented any serious damage. The barn, however, was totally destroyed. The fire was caused by a grass fire which had been started when Mrs. Foran dumped hot ashes in the ash pile behind the house. The flames from this grass quickly set fire to the woodwork on the building and a merry blaze was going when a passerby noticed the fire and gave the alarm.

Gets Into Business R. M. Hall, for the past six months connected with the Plainville Engineering and Supply Co., on Whiting street, will terminate his connections with that firm this evening and will open business for himself at 155 Arch Street, New Britain on or about April 30. The firm will be known as the R. M. Hall Co.

Drive Meeting Success Reports from those in charge of the Salvation Army drive state that the solicitors are meeting with success in their efforts to put the drive over the top. It is expected that when the drive ends this evening, the full quota for Plainville will have been pledged. The advisory board placed a booth in the post office and another in the Plainville Trust Co.

Clean Up Day Planned—Lewis High School To Play Today—Surprise Party—Items.

Wednesday, April 25th, has been set aside as cleanup day in the borough according to an announcement made by the borough officials today. In case of rain, the work will be done the following day. The affair will be the same as in former years and all people within the borough limits are asked to cooperate.

The Lewis High school baseball team will play the Meriden High school team on the Sand Hill grounds this afternoon. The visitors are rated as unusually strong and one of the best games of the year is expected. The local team has been putting in some hard practice sessions during the past week.

The board of selectmen accompanied by members of the school board made an inspection trip of the Milldale school house yesterday. The building there is under construction. At a meeting preceding the visit, bills amounting to \$300 were ordered paid.

Mrs. Winifred Barlow, age 77 years, died yesterday afternoon. She is survived by one son, John Barlow of Hartford. The funeral will be held from the son's home in Hartford.

Joseph Kelley, arrested by Officer John Cockayne on the charge of drunkenness, was assessed the costs of court. He paid \$5.25.

Joseph C. Brannin, a traveling salesman for the H. D. Smith Co., for over 20 years, resigned his position yesterday. He plans to open a hardware office in New York city.

\$10,000,000 BUSINESS IS INVOLVED IN LAWSUIT Penna and Other Roads Object to New York Central Buying Another Road's Stock.

New York, April 21.—Business aggregating more than \$10,000,000 annually was said today to be involved in the suit filed by the Pennsylvania railroad and other lines to nullify the interstate commerce commission's order permitting the New York Central lines to purchase the stock of the Chicago River and Indiana railroad.

Knowledge of the suit which was filed in the U. S. district court of northern Illinois, occurred public yesterday when the New York Central filed an answer.

The Pennsylvania was said to have the backing of the Baltimore and Ohio, Chicago, Indianapolis and Louisville, the Grand Trunk Western, the Pittsburgh-Cincinnati, Chicago and St. Louis and the Wabash application is made for a temporary injunction pending a permanent order. By virtue of its order the interstate commerce commission becomes a defendant in the action.

In the face of concerted opposition the combination in May 1921 decided that the New York Central could acquire the stock of the Chicago River and Indiana railroad and obtain control of the Chicago Junction railroad under a 99 year lease. The latter's tracks cover the Chicago stockyard and adjacent manufacturing territory while the Chicago River and Indiana road three miles long connects the stockyard tracks with outside lines. Control of the two by the New York Central rival roads held gave the latter road a strategic position in the heart of the Chicago packing and manufacturing districts.

ADMIRAL CHESTER DEFIES ALL COMERS IN OIL DEAL Holder of Turkish Concession Declares That Turkey's Govt. is Standing Behind Him

New York, April 21.—"All comers," American as well as British or French, are defied by Rear Admiral Colby M. Chester, U. S. N., retired, holder of the famous \$1,000,000 Chester oil concession in Anatolia in an address last night before the federated Chambers of Commerce in the Near East.

"The Turkish government is behind the Chester project," he declared to his audience of big business men and international bankers. "There west land and on that we will fight it out against all comers."

This assertion followed his intimation that not only British and French concerns were interested in hampering the successful operation of the Chester concession but that "certain American interests" were strongly in opposition. It was Admiral Chester's first public address since the validation of his project.

Dr. Abraham Fouad Bey on a special mission to this country for Turkey, another speaker declared that Turkey was satisfied that the venture

The Tonic to Take In The Spring

Many so-called tonics are merely stimulants. They fail to reach or remedy the real cause which makes you run down or out of sorts. The safe tonic is a food medicine and the greatest body builder is Father John's Medicine whose pure food elements are easily taken up by a weakened and run-down system. This old prescription contains the greatest of food medicines which doctors have prescribed for years for their patients. It is guaranteed free from drugs, alcohol or any other kind of stimulants. It builds up the body, enriches the blood. It is a builder and not a bracer.

Admiral Chester said that he would attempt at once to persuade the American government to forego its capitulation privileges in Turkey.

WANTS HONEST PROBE Magistrate Corrigan Asks That New York Legislature Investigate Rum Scandal in Police Dept.

New York, April 21.—An "honest" legislative inquiry of his charges that the state prohibition law "has been debauched the police force of this city and caused an orgy of graft, perjury and corruption," is urged by Magistrate Joseph E. Corrigan in a letter to the newspapers today.

He writes that the inquiry now being conducted by David Hirschfeld, city commissioner of accounts, is a "disgusting farce."

RED PEPPER FOR COLDS IN CHEST

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a hard cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known.

CURED HIS RHEUMATISM!

"I am eighty-three years old and I doctored for rheumatism ever since I came out of the army, over 35 years ago. Like many others, I spent money freely for so-called 'cures' and I have read about 'True Acid' until I could almost taste it. I could not sleep nights or walk without pain; my hands were so sore and stiff I could not hold a pen. But now I am again in active business and can walk with ease or write all day with comfort. Friends are surprised at the change." You might just as well attempt to put out a fire with oil as try to get rid of your rheumatism, neuritis and like complaints by taking treatment supposed to drive True Acid out of your blood and body. It took Mr. Ashelman fifty years to find out the truth. He learned how to get rid of the true cause of his rheumatism, other disorders, and recover his strength from "The Inner Mystery," now being distributed free by an authority who devoted over twenty years to the scientific study of this trouble. If any reader of "The Herald" wishes "The Inner Mystery of Rheumatism," containing facts overlooked by doctors and scientists for centuries past, simply send a post card or letter to H. P. Chasewater, No. 331-B Street, Hallowell, Maine. Send now, lest you forget! If not a sufferer, cut out this notice and hand this good news and opportunity to some afflicted friend. All who send will receive it by return mail without any charge whatever.
